ONOMA

HOTEL

Our Manifesto

We refuse to see you as just another client.
You are not one of the many.
You are not the same. You have your own expectations and we are committed to finding ways to serve them the best we can.
We are against any boring old type hotels that include all their clients needs in one common package of services.
ONOMA is an original concept hotel that spends most of its resources into understanding you better, through emotionally interactive ways, in order for it to create unique shareable experiences during your stay.
We are devoted to you. We have practically named our hotel after you.
We customise your experience according to your uniqueness.

We are one and only, just like you and your name.
We do dare see things your way.
We are not afraid to say it loud and clear that we respect and encourage everybody to express their point of view while staying at ONOMA Hotel.
We don't like big public campaigns.
We invest our resources into "one to one" personalised campaigns, using technology.
We love to do that in a fun playful personal way.
We are pro to anything supporting diversity and we respect the climate and the planet. We share the perception "we think green; we act green"

Old town view

The oldest part of the city is called “Ano Poli” which means “upper town” and it is in direct view from the Cloud Bar. So picturesque and amazing it holds the highest part of the city and it is enclosed by the roman city walls. A travel back in time just by looking.

Meet the Composers

People who respect and love dialogue are the ONOMA Composers.

We recruit Composers based on their communication skills and their open mind mentality. The Composers are here to facilitate and upgrade the hotel experience. You will find them helping guests at check in, serving a drink, suggesting places to visit.

Our Composers operate as travel friends and as direct links to local culture and people. We want them to be completely devoted to our guests and help them create a unique travel experience, that is why they have as a mission to serve them the best they can.
